Company Profile

C & M Airconditioning PTY LTD was appointed the sole agent and distributor for Chigo Airconditioning products in South Africa during 2001. Since 2002, Chigo Airconditioning cc has a comprehensive network of dealers and agents. So much so that the members has decided to "Franchise" its concept in 2005. Chigo Airconditioning cc is proud to announce that currently we have eleven (11) "Franchisees". We have three (3) Warehouses in South Africa at present. We also offer training to new "Franchisees" and have existing technical teams for support.

Chigo is a major seller to the airconditioning industry worldwide and has entered into longterm agreement with Daikin which ensures quality products at competitive prices.

**To serve our "Franchisees" to the best of our ability and to strive towards our motto
"YOUR MOST PROFESSIONAL PARTNER IN COOLING AND HEATING TECHNOLOGY"**

CHIGO AIR-CONDITIONING CC

SERVICE SUPPORT

- ✓ Chigo has an in-house technical support team. It uses qualified technical staff to assist customers at all times.
- ✓ Chigo is able to assist with Supply, Design and installation of all HVAC systems through our network of Design Engineers, Agents, Franchisees, Dealers and Contractors with full backup from our overseas principals.
- ✓ Chigo started franchising in 2005. Today we have quite a number of franchisees throughout South Africa and intend on expanding even further into Africa.
- ✓ Spares are freely available from our head office in Centurion and most of our Agents.
- ✓ Online technical information, stock availability, ordering system facilities etc. are available direct from our website: www.chigo.co.za 24-hours a day.
- ✓ Our core business is to supply quality air-conditioning units

Product Range

- ✓ Chigo offers a comprehensive product range.
- ✓ All Chigo Units are available in Fixed Speed and Inverter.
- ✓ Chigo has passed all the required International and Local Safety Standards and has been accredited with the ISO9001 award.
- ✓ All Chigo unites are SABS Authorized.
- ✓ All Chigo unites have a Blue-Coloured coil. This is a Hydrophilic Film which enhances the corrosion resistance of the heat exchanger.
- ✓ All metal casings, strips and brackets have been galvanized before being powder coated to help in delaying the corrosion processes of mother nature.
- ✓ Chigo units are equipped with a "soft start" device on the PCB to reduce high starting amps and increase the energy efficiency of the units.
